turftraq™

sportstraq™

gps line marking

Sportstraq is a universal GPS Line Marking solution designed to install on a variety of turf maintenance vehicles.

Sportstraq offers an easy to learn iPad interface coupled with intuitive joy-stick controls. Use any of the pre-built sports templates and layout your athletic field in a matter of minutes with repeatability year after year.

Combined with our high-pressure painting system, you will save time and money. Not only can you line mark fast, **Sportstraq** offers scalability to do more with GPS.

Sportstraq can be used for aerification, overseeding, fertilization, and much more!

GPS Corrections

Traqnology's RTK Network

How It Works

1. Satellites send GPS data to both physical base stations & your machine.
2. Physical bases send satellite data to our servers in an underground data center.
3. Our servers send RTK corrections to your machine through the iPad.
4. You get sub-inch, repeatable, GPS accuracy.

Understanding Our Network

1. 1-2 cm Horizontal Accuracy
2. 1 inch Vertical Accuracy
3. Fast Convergence 1-2 seconds if signal is lost
4. One & Done Mapping of your Field
5. Freely & Seamlessly Roam throughout the Network
6. Better Performance Under Trees & Other Obstructions
7. Completely Repeatable Year After Year

NO TRIPOD REQUIRED!

turftraq™

GPS Sport & Landscape Solutions

GPS Agronomics

Turftraq has been designed for all of your agronomic practices. **Turftraq** can be used for aerification, overseeding, fraze mowing, root pruning, or any other tractor attachment you use. Now you can boundary map turf surfaces, mark points of interest, such as irrigation heads, and create exact mapping. You have complete control of pass-to-pass overlap, implement size, and implement spacing.

Never punch a hole in the same spot again, unless you want to!

Turf Tech GPS

Specification Sheet

Product Benefits

Versatile – A quick release clamp allows you to remove the spray gun to spray stencils, small curves and hard to reach areas with a 25 foot length hose.

Convenience and Comfort

–Easily enter and exit the machine with the adjustable tilt steering column. The two position high back seat with operator controls for ignition, throttle and parking brake and a cup/cell phone holder, keeps everything within arms reach. Seat based Foot pedals control forward/reverse, speed, spray gun activation, steering column lock and lifting or lowering the spray head.

Powerful – Powered by a Honda GX390 engine with electric start power and backup recoil, a hydrostatic trans-axle and airless spray pump.

Quick Color Change– the 2.5 gallon purge makes it easy to spray a second color. Plus it can also be used to clean the spray-gun and hoses right in the field.

Product Overview

The **Traqster Ride-on GPS** Airless Riding Field Line Striper is the first true ride-on airless field striping machine designed exclusively for use on all natural or artificial turf.

Specifications

Item Name	Traqster Ride-on GPS Airless Riding Field Line Striper
